

ARLU
**INVISIBLE NEO M6
SELF-CLOSE**

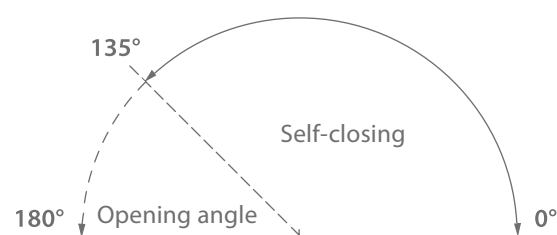

Invisible NEO M6 Self-close is a self-closing version of the invisible NEO M6 hinge. It combines the same sleek, minimalist look with a reliable automatic closing system that is fully integrated into the door leaf. Doors weighing up to 60 kg close smoothly and in a controlled manner from 135°. It is a functional improvement that makes everyday use easier whilst maintaining a sleek appearance.

Invisible NEO M6 Self-close

What are the benefits?

Ease of installation

- Universal: for left- and right-hand doors
- 3D adjustable (height, width, depth) without removing the door
- 180° opening angle, self-closing up to an angle of 135°
- Closing speed remains adjustable, even after installation
