D&E Groom door selector

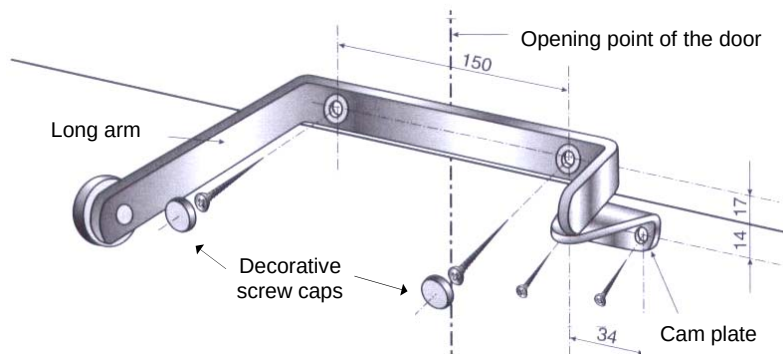

DEGR475EN/SI door selector & rebate carrier EN1158

Finish: silver lacquered

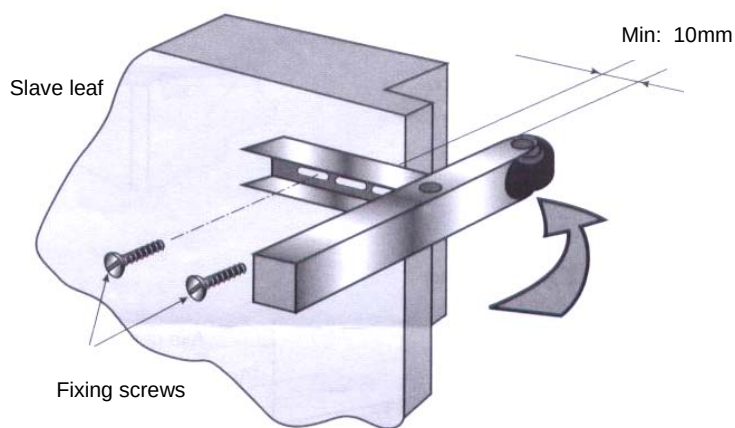

Packaging: 1 / 10 pcs

Max door weight : 100Kg

Supplied complete with fixings and installation instructions.

Installed on the frame of the door above the opening point of the door / rebate.

The rebate carrier is used to open the primary leaf passed the long roller arm. The door selector drops down catching the primary leaf to prevent it from closing in the incorrect sequence.

Ensure that the fixings for the rebate carrier are firmly secured as this item is put under strain when being used.
