How to change the handing on SSF Narrow stile lock cases

Instructions

- 1 Disengage red retention device (anti-thrust slide)
- 2 Push the black insert in the upper screw perforation upwards
- 3 The latch bolt is automatically thrust forwards and out of the lock
- 4 Rotate latch bolt and re-align in the cut out, press back in.
The latch bolt is automatically held fast.
- 5 Push the red retention device home (anti-thrust slide)
